Application No.: Continuation Application of PCT/EP98/06004 (U.S. Designated)
Filed: March 17, 2000
For: Cytokines Having Neurotrophic Activity

Date: 3-17-00

EXPRESS MAIL LABEL NO. EJ611948809 US

PRELIMINARY REMARKS

Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

These remarks are filed together with the Continuation Patent Application of PCT/EP98/06004, filed on September 21, 1998, which designated the US and claims priority to European Patent Application No. 97 116 373.8 filed on September 19, 1997.

With respect to PCT/EP98/06004, the present specification includes, at page 1, a related applications paragraph which indicates that the present application is a continuation. Section headings have been added or changed. The abstract has been moved to the end of the specification and is presented on a separate sheet.

Figures 2 and 5 have been relabeled as 2A-2F and 5A-5B, respectively. Figure legends, under the Brief Description of the Drawings section heading, have been modified to specifically identify the number and letter of corresponding Figures.

No new matter has been introduced.

If the Examiner feels that a telephone conference would expedite prosecution of this case, the Examiner is invited to call the undersigned at (781) 861-6240.

Respectfully submitted,

HAMILTON, BROOK, SMITH & REYNOLDS, P.C.
